EURO-PAR

The Euro-Par Conference Format

Euro-Par is a yearly conference, which takes place in late August. Since the 1996 conference in Lyon, Euro-Par conferences consist of a large array of *topics* on all aspects of parallel processing, from theory to practice, from academia to industry. Depending on the individual volumes of submission, topics are merged intro *tracks* at the conference. The tracks are framed by *high-level invited talks* and introduced by *tutorials of general interest*.

Each topic is administered by a commitee of four or more people, depending on the expected number of submissions. One committee member, the *global chair*, represents the topic to the international community, another, the *local chair*, represents it to the conference organization team. Each submission is reviewed four times, each committee member is responsible for one review. Submission and reviewing is entirely electronic, except in extenuating circumstances.

All presented papers are available at the conference in the proceedings published by Springer Verlag in the series *Lecture Notes on Computer Science* (LNCS). The contributions are classified into invited papers (talk: 45-60 minutes, page limit: negotiable), distinguished papers (talk: 30 min, page limit recommended: 14 pages, hard limit: 16 pages) and regular papers (talk: 30 min, page limit recommended: 12 pages, hard limit: 14 pages).

The yearly **Euro-Par Achievement Award** is being conveyed at the conference banquet. Recipients are researchers with outstanding merit in parallel computing and an allegiance to the Euro-Par conference series.

Submission deadline for the Euro-Pas PhD Symposium has been extended to 27 May, 2023. Click here for more information - https://t.co/wWxislCJSC

17.05.2023 - 11:51

The Euro-Par PhD Symposium is a welcoming and supportive forum for PhD students to present their work. Click here for more information: https://t.co/wWxislCJSC

04.04.2023 - 09:25

Submit your paper for EURO-PAR 2023 Workshops and Minisymposia! Click here for more information. https://t.co/UEseXWb3Dz
